

# Mines and Mining Stocks

## LITIGATION OF SILVER KING

Conkling Mining Company Insists That Famous Elephant Stope Has Not Moved.

Another move was made in the litigation now pending between Nicholas Treweek and the Conkling Mining company and the Silver King Coalition Mines company when the former company, through its attorneys, Dye & Hoppaugh, yesterday filed an amended reply to the amended answer of the Silver King company in the federal court. The document is a lengthy one and deals largely with the contention of the Silver King company that the ore bodies alleged by the Conkling company to have been mined in the Conkling extension are located in the westerly 333 feet of that claim in ground that does not properly belong within the surface boundaries of the Conkling extension, but in ground wholly by the defendant company.

The Conkling company's reply recites that the patent of the Conkling claim definitely fixes its exact location; that it is many years older than the overlapping claim which the King company claims to have been made in the Silver King's famous Elephant stope. It is also pointed out that the Silver King owns a one-fourth interest in the Conkling claim, that, through this ownership and the deeds conveying it, the defendant has known all the time that the claim of the Conkling company respecting the location of the ground was correct.

As the suit is one that involves more than \$100,000 worth of ore and the right to mine in that territory in the future, the greatest care is being taken by both sides to approach the main issue, the trial of the case, with fences well constructed. That the fight will be a hot one when it gets well under way is certain, for the stakes are such that neither side can afford to miss a trick of any kind.

## NEW COMPANY FOR DEEP CREEK

Provo, June 1.—Articles of incorporation of the Roy Mining & Milling company have been filed with the county clerk. Provo City is the principal place of business. The capital stock is \$50,000, in shares of the par value of \$100 each, based on the valuation of the following property in Clinton mining district, Tooele county, viz.: The Neph, Roy Nos. 1 and 2, Road No. 1 and 2, Jones Nos. 1, 2 and 3, Ward Nos. 1 and 2 and Willett.

The directors are Franklin N. Willett, president; John H. Stratton, vice president; Don C. Clayton, secretary and treasurer; Paul A. Willett and Walter Cox.

## FIGHT ON SILVER PEAK IS ON IN NEVADA

Judge Pike at Reno in the Silver Peak mine suit has ordered that a writ of assistance be issued to the plaintiffs, Gamble and Chabourne, and to one defendant, Wright, and providing that the three named parties protecting them from any damage or loss through the operation of the many properties by the Fittsburg-Silver Peak Mining company. A stay of the writ was granted until June 14, when the amount of the bond will be made.

### Stocks in San Francisco.

The closing quotations on Nevada stocks in San Francisco yesterday, as reported by the private wires of James A. Pollock & Co., were as follows:

June is the month of weddings.

## PARROTT COMPANY HOLDS ANNUAL

Butte, June 1.—At the annual meeting of the Parrott Silver & Copper Mining company held here at noon today, the following directors were elected: John D. Ryan, Sidney Chase, F. P. Addicks, H. A. Galloway, B. B. Thayer, A. B. Grafius and A. H. Kohn. Mr. Thayer succeeds J. E. Judson on the board, and this is the only change.

## DAY'S DOINGS ON THE NEW EXCHANGE

During the regular calls on the new exchange yesterday, mighty little was doing. In the morning 200 shares of East Tintic Gold King at 1 1/2c and 100 Mountain King Extension at 1 1/2c made up the sum total. During the regular call in the afternoon five transactions were recorded, two in Kincola at 1 1/2c and 1 1/2c respectively, one in Tintic Consolidated at 1 1/2c, one in Joe Bowers at 1 1/2c, and one in East Tintic Development at 1 1/2c.

The open board transactions were so much more conspicuous as to cause doubt as to their genuineness. It was announced previously to the formation of this exchange that all "monkey business" would be absolutely made impossible through the clearing house that was to be a feature of the institution; but, so far as known, the clearing house has been forgotten.

The bonds sold included about ten stocks, from Ogema to Kincola; from Joe Bowers to Silver King, and with the exception of the stocks named, the prices made varied but little from those made on the old exchange.

## RAILWAY ENGINEERS GET BUSY AT PIOCHE

Word was received from Pioche yesterday morning that the San Pedro company's surveyors, Engineer Knowles, had reached camp and established headquarters at the Prince Consolidated mine. The survey of the branch line of railroad that is to connect the Prince Consolidated and other mines in that vicinity with the San Pedro station at Pioche has already begun, and it is promised that no time will be lost in finishing the task assigned Mr. Knowles and his party by the San Pedro company.

If everything moves along as expected, actual construction of the eight or nine miles of road will be under way within sixty days, and completed a few weeks later, as the country is not going to be a build one to build another next fall. The Prince Consolidated will be rolling out a big tonnage and loading direct into broad-gauge cars.

## NEW GOLD SPRINGS CO. FILES ITS ARTICLES

The Gold Springs Mining & Power company, organized at Salt Lake, and taking over the property of the Jennie Gold Mining and the Snowflake Gold Mining and Power companies, filed articles of incorporation yesterday. The capital is \$100,000, in dollar shares, of which \$25,000 are treasury stock. C. A. Short is president; A. S. Martin, vice president; H. R. Elliott, secretary and treasurer, and those with W. W. Harton, W. B. Short, W. H. Bramel and G. Hannon, are the directors.

The shareholders of the Jennie company receive 600,000 shares and the Snowflake stockholders 250,000 shares. The directors are authorized to issue stock of any amount, not to exceed \$100,000, of which \$25,000 are to be sold at once.

## MT. NEBO OIL CO. IS DRILLING AGAIN

Secretary A. Whitehead of the Mt. Nebo Oil company was in the city yesterday afternoon, after a close-down of a couple of months, during which time it has been necessary to wait for casing for the well that the company is boring near Juab station on the line of the San Pedro railroad, in Juab county, drilling has again commenced in earnest and with a prospect of having something out of the ordinary to report before long.

The company's work was approximately 1,200 feet deep, and it has been cased off all the way down. The drills were started to work again yesterday morning.

## DOINGS OF UNLISTED STOCKS ON EXCHANGE

Unlisted stocks were neglected during the open board trading on the mining stock exchange yesterday. Quotations were made on a few of them, but no sales were reported.

Bingham Central-Standard was quoted at 4 1/2c at 3c. Dominion at 1 1/2c at 1 1/2c asked, Pioche King at 2 1/2c at 2 1/2c, Tintic Standard at 1 1/2c and Uintah Treasury Hill at 1 1/2c.

## Mining Notes.

Six carloads of ore from Utah mines and three from Nevada were released from the Pioneer sampler yesterday.

Colonel E. A. Wall, who returned from the east Monday night, will leave for Bingham this morning to look after his mine interests.

There were released from the Taylor & Bruntson sampling works yesterday seven carloads of ore from Utah mines and three from Nevada.

The settling basis for copper this week is fixed by the American company at 13 cents a pound. Lead is also higher at 13 1/2c, in company with a waiting party of easterners, went out to the company's properties at Bingham. Mr. Warfield has been in the city several days looking after company business affairs.

C. E. Loose, general manager of the Sioux Consolidated and the Carls, as well as other Tintic propositions, was up from Provo yesterday. He says the Sioux is looking fine and that every day's development in the Carls is significant in its nature. He is banking on that property to come out all right.

## Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCormick & Co., amounted to \$35,000, as follows: Silver, lead, gold and copper ores, \$10,000; base bullion, \$25,000.

## Metal Market.

Silver, 35c per ounce.  
Copper (cash), 13c per pound.  
Lead, 13 1/2c per 100 pounds.

## Herald Free Cooking School

Tonight at 8:15, Unity hall, 133 East Second South.

## Laurelhurst Prices Go Up.

After June 10 you will have to pay \$700 to \$1,000 an acre for Laurelhurst. Before the 10th you can buy for \$550 to \$700. Better buy, hadn't you? 404 Aths.

Saltair Train Schedule, 9:30, 12:15, 2 and every 45 minutes thereafter. Round trip, 25c.

## CAVE MINE IS GETTING COPPER

Shipping Three Cars of Iron Ore Weekly and Disclosing Fine Red Metal Values.

It was learned yesterday that the Cave mine, in Beaver county, is doing an even better business than was shown in the previous days' holiday bringing in a good accumulation of orders and a creation of a strong sentiment. Carls is gathering strength from day to day, and Uncle Sam Consolidated is also in the climbing list. Consolidated Iron Blossom, Sioux Consolidated, Silver King Coalition, Ohio Copper, East Tintic Development and several other made a good showing and the rest of the list, with the exception of Columbus Consolidated, Black Jack and Mason Valley, which were all weak, held their own.

During the two regular and open board calls a total of 145,745 shares of stock, with a selling value of \$24,361.75, changed hands. Following is the list of final quotations and record of sales made during the day:

## BOSTON AND NEW YORK STOCK MARKET REPORTS

Following is the daily market comment of Paine, Webber & Co., Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York currency transactions by James A. Pollock & Co., and from whom it is secured for use in this department of The Herald:

Boston, June 1.—The whole list opened strong this morning, but did not show the expected activity. Steel and Iron prices were leaders in New York and Copper Range and East Butte were the most active in the local market. The report of the copper producers will be issued in about a week and should be very favorable. Well posted people are sure of it. The break in Massachusetts was due to selling by a large stock holder and the catching of the market on the way down.

The great strength of Calumet & Hecla shows the trend of the copper market, and will surely be followed by the balance of the list.
